The Mental Health, Alcohol & Drug Addiction Recovery Board of Putnam County

Fiscal Year 26 Annual Report

Message to Putnam County Residents

Our Mission

The commitment of the Putnam County ADAMHS Board in partnership with providers, other social service organizations, the community, and our families is to provide necessary behavioral health care services. The residents of Putnam County believe in and promote strong family ties. We believe our future is dependent upon the well-being of our families. As these needs are effectively met, individuals and families will develop to their fullest potential, and the community will build on the renewed strengths of the residents.

The Mental Health, Alcohol & Drug Addiction Recovery Board (ADAMHS Board) of Putnam County is statutorily empowered to establish, to the extent resources are available, a comprehensive continuum of behavioral health care. Essential elements of this continuum include, but are not limited to, prevention services, mental health and addiction treatment services, emergency and crisis intervention, and detoxification services. The ADAMHS Board fulfills this responsibility by partnering with public and private organizations to ensure that Putnam County residents have access to high-quality, coordinated mental health and addiction prevention, treatment, and recovery support services.

The Board's annual operating budget is approximately $2 million, with 43% of its funding generated through local levy dollars. We are committed to being responsible stewards of these public funds and ensuring they are invested wisely and effectively. These local resources are essential to meeting the behavioral health needs of Putnam County residents by supporting access to prevention, treatment, crisis intervention, and recovery support services.

For the past 3 years, the Board has been the grateful recipient of generous donations from the Putnam County Suicide Awareness Walk/Run. Their support has enabled the ADAMHS Board to bring nationally recognized speakers to Putnam County schools to present on suicide awareness and prevention. Through these presentations, students receive an impactful message about their own value, the importance of hope and resilience, and how to recognize and support peers who may be struggling. The generosity has made a meaningful difference in promoting youth mental health and suicide prevention throughout our community.

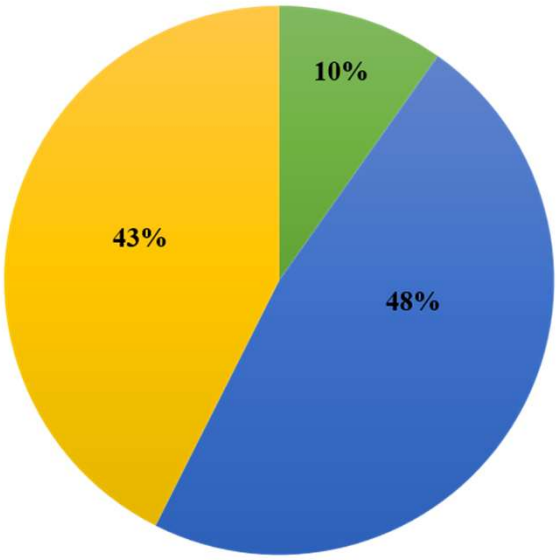

Our 14-member Board has demonstrated a strong commitment to strengthening the behavioral health system in Putnam County. Board members generously volunteer their time and expertise to provide oversight and strategic direction. Each month, they review financial reports and policies, evaluate program and service data, and discuss local behavioral health needs alongside emerging state initiatives. Their dedication helps ensure that resources are managed responsibly and that services continue to meet the needs of Putnam County residents.

The Putnam County ADAMHS Board, in partnership with community stakeholders, remains committed to assessing the behavioral health needs of our community and to pursuing funding opportunities to address identified service gaps. Guided by the principle of **Local Needs, Local Decisions, Local Boards,** we strive to ensure that resources are invested where they will have the greatest impact. We are grateful to our community partners, Board members, providers, and county residents for their ongoing collaboration and shared commitment to building a healthier, safer Putnam County.
